## 1 Introduction

### 1.1 Background and purpose

ICA Gruppen believe that sustainability work and strong community engagement goes hand in hand with long-term profitability. Sustainability is a strategic priority and is integrated into all of ICA Gruppen's operations. ICA Gruppen's operations extend across many areas: Grocery retail, Pharmacy business, Construction and Real Estate operations, as well as Banking and Insurance services. The breadth of the business means the Group has an impact in a great many areas. ICA Gruppen aim to develop our business with the customers and long-term sustainability in focus. Customers and other stakeholders must feel secure and have confidence in ICA Gruppen and its business.

ICA Gruppen has signed the UN Global Compact and has committed to its Ten Principles covering human rights, labour conditions, the environment and anti-corruption. Together with the UN's Sustainable Development Goals and ICA Gruppen's policies and general guidelines, they form the framework for ICA Gruppen's sustainability work. ICA Gruppen's sustainability work must be credible and transparent, and based on the company's actual and potential impacts on people, the environment, and communities. ICA Gruppen's suppliers and other business partners must comply with the legislation in force throughout their operations in the countries where they operate.

The Sustainability Policy and the general guidelines describe ICA Gruppen's overarching position on sustainability matters beyond the requirements set out in the legislations. All of ICA Gruppen's employees, suppliers and business partners are expected to follow these.

The areas of tax, business ethics, the work environment, and diversity & inclusion are areas linked to sustainability and are subject to separate policies and guidelines.
