

Third quarter 2016

Good sales growth in weaker market

Third quarter 2016

- Consolidated net sales amounted to SEK 25,752 million (25,517), an increase of 0.9%
- Operating profit excluding non-recurring items totalled SEK 1,376 million (1,321). Operating profit for the comparison period included costs of SEK 52 million associated with the acquisition and integration of Apotek Hjärtat
- Profit from continuing operations (ICA Gruppen excl. ICA Norway) was SEK 1,049 million (979). Profit includes capital gains on sales of noncurrent assets and impairment losses totalling SEK 20 million net (-43)
- Earnings per share for continuing operations were SEK 5.21 (4.83)
- Cash flow from operating activities for continuing operations amounted to SEK 550 million (955). Excluding ICA Bank the Cash flow was SEK 1.045 (624)

Events after the end of the quarter

· No significant events have taken place after the end of the quarter

January-September 2016

- Consolidated net sales amounted to SEK 76,735 million (74,732), an increase of 2.7%
- Operating profit excluding non-recurring items totalled SEK 3,489 m (3,114). Operating profit for the comparison period included costs of SEK 132 million associated with the acquisition and integration of Apotek Hjärtat
- Profit from continuing operations (ICA Gruppen excl. ICA Norway) was SEK 2,613 million (2,294). Profit includes capital gains on sales of noncurrent assets and impairment losses totalling SEK 0 million, net (6)
- Earnings per share for continuing operations were SEK 12.98 (11.11)
- Cash flow from operating activities for continuing operations amounted to SEK 2,733 million (3,861). Excluding ICA Bank the Cash flow was SEK 3,039 million (2,551)
- The corresponding period in 2015 included capital gains and proceeds from the divestment of ICA Norway, which affected profit by SEK 1.2 billion and cash flow by SEK 2.8 billion. The acquisition of Apotek Hjärtat affected the cash flow by SEK -3.5 billion

Apotek Hjärtat is included in ICA Gruppen as from 15 January 2015. Cura pharmacies, previously part of ICA Sweden, are included in the pharmacy segment for the entire period. Historical comparative figures for ICA Sweden have been adjusted to exclude Cura pharmacies. ICA Norway is reported as a discontinued operation.

CEO's comments

Compared with the market, we had good growth in our store sales during the third quarter. At the same time, in Sweden we saw clearly lower food price inflation and a significantly lower rate of growth in the market during the summer. Most of our businesses are showing improved earnings and have stable or growing margins. We are pleased with this, especially in view of the slightly higher level of costs we have in many parts of the Group for ongoing future investments.

The Swedish ICA stores had good sales growth during the summer months and continuing into the autumn. The rate of growth has slowed, however, preliminary market data indicates that we are gaining market shares. To date during the year we have still opened relatively few stores, which makes our performance extra positive, since it shows that we have favourable like-for-like performance. During the fourth quarter we plan to open nine stores in Sweden which, all else equal, will increase our total stores sales at the end of the year. The rate of growth in the Swedish market during the summer was clearly at a lower level than previously, with very low price growth at present of just over zero per cent. This is considerably lower than both last year and the start of 2016 and indicates – if the trend continues – another market situation that could lead to a further intensification of competition. Continuing our work with customer offerings that provide value for money and developing the product range – not least our private label products – will be even more important. Stability in our logistics in southern Sweden has increased and is definitely moving in the right direction. We are now doing everything we can to sustain this trend.

Continued strong performance for Rimi Baltic

Rimi Baltic showed continued strong performance during the third quarter, with higher market shares, a high pace of growth, and improved margins. We continue strengthen our position through store establishment, conversion of previously discount stores to Rimi stores, and continuous work with efficiency improvement and more compelling customer offerings. A bit further ahead in time we will also develop our digital offerings. I mentioned in our previous report that Lidl had opened a number of stores in Lithuania, and this has had a slightly negative impact on our stores sales there

Good momentum at Apotek Hjärtat, ICA Bank's transformation continues, greater focus on sustainability

Apotek Hjärtat had yet another good quarter, and like-for-like sales are outpacing growth in the market. Going forward we will dedicate resources into developing Apotek Hjärtat's online channel, increase the pace of marketing, renewals of existing pharmacies and continue to open new pharmacies, particularly at locations close to ICA stores. This will lead to higher costs in the near term. Apotek Hjärtat has a strong brand to build further upon, and I am happy to note that we recently won a Swedish Brand Award in the pharmacy category for the first time. This is a sign that we are doing a good job at meeting our customers' needs.

ICA Bank is currently in the midst of a sweeping transformation designed to enable a long-term favourable level of earnings. Given the challenges for the bank's traditional business model, we can see that this work has already paid off, as we have at least managed to offset the major impact of low interest rates and changed rules for card fees. At the same time, we have also achieved a good start for ICA Insurance.

I also want to mention that ICA Gruppen has won a UN award for its "Climate-right" project – which is an honour and proof that we are spot-on in our ambition and that we are at the vanguard in our environmental work. To further strengthen our sustainability work, Kerstin Lindvall, formerly SVP Corporate Responsibility for ICA Sweden, has been named as ICA Gruppen's Chief Corporate Responsibility Officer and as a member of ICA Gruppen's management team since October. Parallel with this, ICA Gruppen's board established a sustainability committee.

High pace of change

We have pointed out on several occasions that the market is changing at a fast pace, with new competitors, offerings and demands from our customers on how they want to be met in tomorrow's market. We are now working intensively across a broad front throughout ICA Gruppen to ensure that we get things right in this development regardless of whether it pertains to new store formats, digital solutions, loyalty programmes, the product range, or offerings that give customers value for money. This will require changes, investments and new initiatives that will be necessary for us to develop and retain the leading position we have built up over nearly 100 years.

Group performance

Net sales and earnings

Third quarter 2016

Consolidated net sales increased by 0.9% during the quarter compared with 2015. Sales thus grew at a slower pace than earlier in the year, which is mainly due to considerably lower food price inflation in Sweden. Divestments within Apotek Hjärtat have also affected the comparison with a year ago. Adjusted for these, sales grew by approximately 2%. In other respects, assortment mix effects have led to positive price effects for Non-food, Rimi Baltic and Hemtex, while volumes have grown primarily in Rimi Baltic, Apotek Hjärtat, and in ICA Sweden's wholesale operations. On the whole, however, the volume effect in ICA Sweden was negative due to the divestments of store subsidiaries in early 2016.

Operating profit excluding non-recurring items amounted to 1,376 million (1,321) during the quarter. Operating profit for the third quarter a year ago included costs of SEK 52 million associated with the acquisition and integration of Apotek Hjärtat. Adjusted for these costs, earnings were level with the preceding year. The operating margin excluding non-recurring items was 5.3% (5.2%).

Profit for the period from continuing operations – ICA Gruppen excluding ICA Norway – was 1,049 million (979). Profit includes capital gains on sales of non-current assets and impairment losses totalling SEK 20 million (-43) combined. Earnings per share for continuing operations were 5.21 (4.83).

January-September 2016

Consolidated net sales increased by 2.7% compared with 2015. Operating profit excluding non-recurring items amounted to SEK 3,489 Mkr (3,114), an increase of SEK 375 million, or 12%. Operating profit for the same period a year ago included costs of SEK 132 million associated with the acquisition and integration of Apotek Hjärtat. Adjusted for these costs, the earnings increase was SEK 243 million, or approximately 8%. The operating margin excluding non-recurring items was 4.5% (4.2%). All segments except ICA Bank showed earnings improvement.

Profit for the period from continuing operations – ICA Gruppen excluding ICA Norway – was SEK 2,613 million (2,294). Profit includes capital gains on sales of non-current assets and impairment losses totalling SEK 0 million (6) combined. Earnings per share for continuing operations were SEK 12.98 (11.11).

¹⁾ Includes acquisition and integration costs of SEK -52 million for the third quarter, SEK -132 million accumulated, and SEK -208 million for the full year 2015.

Net financial items and tax

Net financial items amounted to SEK -95 million during the quarter (-93). Financial income decreased as a previous shareholder loan in Ancore was converted to shareholders' equity on 1 July. Financial expenses were also slightly lower.

The tax expense for the quarter was SEK 252 million (206), corresponding to a tax rate of 19.4% (17.4%). Paid tax during the quarter totalled SEK -188 million (-217).

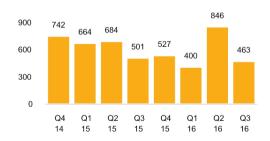

Cash flow

Cash flow from operating activities (excluding ICA Bank) was SEK 421 million higher than in the same period a year ago. Apart from a higher underlying operating profit, the improvement is attributable to a lower increase in working capital than in 2015.

Consolidated cash flow statement, excluding ICA Bank

Capex (cash flow), SEKm

Excluding approx. SEK 3.5 bn related to acquisitions in Q1 2015

Investments

The Group's investments amounted to SEK 463 million (501) during the quarter. Of this total, SEK 158 million (166) is attributable to the real estate company. During the third quarter ICA Real Estate sold properties for SEK 81 million (9).

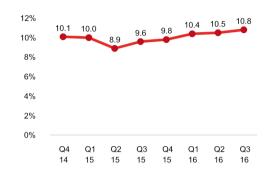

Financial position

Consolidated net debt (excluding ICA Bank and pension liabilities) amounted to SEK 11.6 billion (14.1) at the end of the quarter. The lower level of net debt is attributable to a positive cash flow, lower capital expenditures, and divestments of properties and of inkClub. At 30 September, net debt in relation to EBITDA (rolling 12 months) was 1.8 (2.5), which is in line with the Group's long-term target of <2.0.

Net debt and Net debt/EBITDA

Important events during the quarter

 Kerstin Lindvall was appointed as Chief Corporate Responsibility Officer and member of ICA Gruppen's management team.

Important events after the end of the quarter

· No significant events have taken place after the end of the quarter

ICA Sweden

ICA Sweden conducts grocery retail business in cooperation with independent ICA retailers. The retailers own and manage their own stores, but have agreements with ICA Sweden in areas such as purchasing, logistics, market communication and store development. ICA Sweden also includes ICA Special, which conducts sales of nonfood items at Maxi ICA (Hypermarket) stores.

Net sales and earnings

Third quarter 2016

ICA Sweden's net sales increased by 1.3% compared with the same period a year ago, mainly owing to higher wholesale volume. Dry Groceries, Fresh Foods, and Fruit & Vegetables were the product categories that performed best.

Operating profit excluding non-recurring items increased by 2.4% to SEK 1,020 million (996), and the operating margin grew slightly to 5.5% (5.4%). The volume effect on earnings was negative, as the increase in sales volume from the wholesale operations was countered by lower volume resulting from the sale of several store subsidiaries at the start of the year. The price effect, however, was positive, owing to assortment mix effects in the Non-food category and store subsidiaries. Logistics costs were negligibly higher than in 2015, as higher current costs were offset by a revaluation of diesel hedges, which had a positive earnings impact of SEK 31 million. Other costs decreased compared with 2015, mainly attributable to lower store costs. Profit distribution from ICA stores was SEK 15 million lower than a year ago.

January-September 2016

ICA Sweden's net sales increased by 2.3% compared with the same period a year ago, and operating profit excluding non-recurring items rose 4.4% to SEK 2,667 million (2,554). Profit for the period included a gain of SEK 27 million related to divestment of store subsidiaries to independent retailers. The operating margin grew to 4.9% (4.8%).

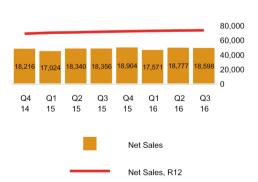

Other

At the end of the period, 193 ICA stores were active with online sales, and a large number of stores offered the ICA Matkassen pre-packed grocery bag concept. Total online sales increased by 46% during the third quarter compared with the same period in 2015.

EBIT and **EBIT** margin

The market and ICA store sales

The Swedish grocery retail market grew by 0.1% during the third quarter, according to preliminary data from HUI Research, which will publish definitive market data for the third quarter on 28 November.

Sales (excluding VAT) for Swedish ICA stores increased by 1.6% during the quarter and by 1.3% on a like-for-like basis. The price effect, by ICA Gruppen's estimation, was 0.5% (2.8%) during the quarter. The price effect in the preceding quarter was 1.2%. Adjusted for price and calendar effects, volume growth for the quarter was 0.7%, and 0.5% on a like-for-like basis. Based on the preliminary data for total market development, ICA stores' market share increased slightly during the third quarter.

The sales growth can be credited primarily to a larger number of customer visits, but also to a higher average spend. Product categories that performed strongly during the quarter included Flowers, Beverages, and Bakery. In the Non-food area, the Kitchen and Home categories showed the best performance, while total non-food sales were down slightly during the quarter. Sales of organic products continued to grow, as did sales via the ICA online channel.

Private label products as a share of accumulated sales amounted to 24.0% (23.3%).

Emphasis in 2016 is on developing and strengthening ICA's offerings in the areas of Health (Hälsa), Organic (Ekologiskt), Local (Lokalproducerade färskvaror) and Price & Promotion (Prisvärdhet) in the four market concepts "Come along & feel good", "Choose organic", "From here" and "It pays". Focus will also be on developing the private label product range and on further improving precision in customer-specific offers via the loyalty programme.

Three new stores opened during the third quarter, entailing that a total of eight new stores have opened during the year to date. In all, 17 new stores are planned to be established in 2016, compared with ten in 2015.

Rimi Baltic

Rimi Baltic conducts grocery retail business via 262 wholly owned stores in Estonia, Latvia and Lithuania. Rimi Baltic includes the Rimi Hypermarket and Rimi Supermarket store formats, and the Säästumarket and Supernetto discount chains. Rimi Baltic also includes the properties owned by the Group in the Baltic countries.

Net sales and earnings

Third quarter 2016

The total market for the three Baltic countries grew 1.9% during the third quarter. Inflation during the quarter was approximately 2.1%, which was a higher rate than during the preceding quarter, when inflation was 1.5%.

Rimi Baltic's net sales increased by 5.2% during the quarter; the increase in local currency was 4.4%. The price and volume effect was roughly as large. The increase in volume was attributable to new and converted stores, while price increases for certain products and an improved mix had a positive effect during the quarter. On a like-for-like basis, sales decreased by -0.6%. In Latvia, like-for-like performance for Rimi Supermarkets and the SuperNetto discount format was slightly weaker, while performance in Lithuania is explained in part by weaker growth in the market and in part by higher competition from newly opened Lidl stores. Estonia had good sales performance both in total and on a like-for-like basis. During the quarter Rimi Baltic opened three new stores, and compared with the same period in 2015 the number of stores increased by ten. Taken overall, Rimi Baltic continued to grow its market share in the region.

Gross profit improved, and operating profit before non-recurring items rose 22% to SEK 134 million (110). The earnings improvement is attributable to both price and volume. More effective campaigns, improved purchasing prices and higher store productivity also contributed to the earnings growth. This development was countered to some degree by higher store costs, mainly owing to new stores and higher personnel costs. The operating margin widened to 4.0% (3.4%).

January-September 2016

Rimi Baltic's net sales increased by 6.6% during the period; the increase in local currency was 6.0%. The increase was driven primarily by new and converted stores.

Operating profit excluding non-recurring items rose 25% to SEK 359 million (287). The earnings improvement is mainly attributable to better price and campaign margins, but also to higher volume and improved productivity. The operating margin widened to 3.6% (3.1%).

Other

Profit for the quarter included a net earnings effect of SEK -3 million (-4) from the sale of properties and impairment of property values, which is reported as a non-recurring item.

Net Sales, EURm

EBIT and EBIT margin

Apotek Hjärtat

Apotek Hjärtat has been part of ICA Gruppen since the start of 2015. With 388 pharmacies in Sweden, Apotek Hjärtat is the second-largest player in the Swedish pharmacy market.

Net sales and earnings

Third quarter 2016

The total pharmacy market in Sweden grew 4.4% during the third quarter compared with the same period in 2015. Traded goods showed the highest growth, at 6.7%.

Net sales for the quarter amounted to SEK 3,021 million (3,113). Net sales for the corresponding period a year ago included SEK 261 million from the divested Care and Nursing unit and Apovet. Adjusted for these divested operations, Apotek Hjärtat's sales growth during the third quarter was 6.9%, mainly driven by favourable volume growth in like-for-like pharmacies at grocery store locations and by new pharmacies. Operating profit excluding non-recurring items was SEK 129 million (85). Operating profit for the corresponding period a year ago included acquisition and integration costs of SEK 52 million and operating profit of approximately SEK 4 million from divested operations. The underlying operating profit thus decreased by 3%, or SEK 4 million. A considerably improved gross profit driven by higher sales volume and lower purchasing prices was countered by higher costs associated with newly opened pharmacies, higher marketing costs, and higher costs for, among other things, ongoing work with Apotek Hjärtat's online channel. The operating margin was 4.3% (2.7%).

The business focus continues to be on achieving greater sales in newly established and like-for-like pharmacies, higher pace in pharmacy renewals, expanding the e-commerce channel, launching more private label products, conducting initiatives to strengthen the position in Health, developing the Minute Clinics, and achieving more efficient logistics.

January-September 2016

Net sales for the period increased to SEK 9,333 (9,108). Operating profit excluding non-recurring items totalled SEK 334 million (189). Operating profit for the corresponding period a year ago included acquisition and integration costs of SEK 132 million. Underlying earnings growth was thus SEK 13 million, or 4%. The operating margin was 3.6% (2.1%).

ICA Real Estate

ICA Real Estate's mission is to satisfy the Group's future needs for premises in the right marketplaces in Sweden. The real estate company is an active buyer and seller of properties and both develops shopping centres from scratch and buys strategic properties with existing ICA stores.

Net sales and earnings

Third quarter 2016

Net sales were slightly lower during the quarter compared with a year ago and totalled SEK 594 million (600). The addition of rental income during the period from new investments was lower than the effect of the divestments made in Norway and Sweden. Operating profit excluding non-recurring items was higher than a year ago, however, at SEK 142 million (134), which is due to a higher earnings contribution from joint ventures, lower operating costs and lower depreciation on account of the fact that depreciation is no longer charged for the Norwegian properties, which are all held for sale. The discontinuation of depreciation generated an earnings effect of SEK 22 million compared with the same quarter a year ago.

January-September 2016

Net sales for the period totalled SEK 1,769 million (1,776). Operating profit excluding non-recurring items was slightly higher than for the same period in 2015, SEK 352 million (344).

Valuation of property holdings

An appraisal of all Swedish properties was carried out during the quarter. The market value of the wholly owned properties was appraised at SEK 12.2 billion (book value SEK 9.8 billion). Added to this are properties that are partly owned by ICA Real Estate through three joint ventures: Långeberga logistics, SEK 1.8 billion; Ancore Fastigheter, SEK 5.8 billion; and Secore Fastigheter, SEK 1.1 billion. The book value of the partly owned properties is SEK 1.6 billion, SEK 4.7 billion and SEK 1.1 billion, respectively. ICA Real Estate's share of ownership in all three companies is 50%.

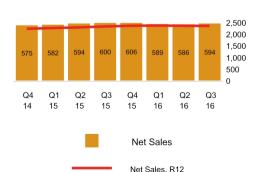

Other

Capital gains of SEK 14 million (4) on sales of properties and impairment losses of SEK -1 million (-43) for property values are reported as non-recurring items. Sales of individual properties in Norway continued during the quarter, and the sales process for the remaining properties is currently in progress. These properties are reported as assets held for sale as of 31 March 2016 and are at the same time no longer depreciated. The book value was SEK 1.6 billion as per 30 September.

EBIT and EBIT margin

ICA Bank

ICA Bank offers a full range of financial services and insurance in Sweden. The goal is to increase customer loyalty to ICA and to reduce transaction costs for ICA stores and ICA Gruppen.

Revenue and earnings

Third quarter 2016

ICA Bank's revenue during the quarter was at the same level as in the third quarter a year ago. The bank's underlying revenue was slightly lower, however, this was offset by a positive contribution by ICA Insurance, which was started at the end of 2015. The reported decrease in revenue by SEK 32 million to SEK 189 million (221) was due entirely to a change in accounting for reinsurance costs. ICA Bank's underlying level of revenue was affected by lower net interest income and lower net commissions, while total business volume continued to grow, especially for home mortgages and deposits.

Operating profit excluding non-recurring items totalled SEK 21 million (48). Compared with a year ago, earnings were negatively affected by lower card revenue and a decrease in cash withdrawals as well as by a lower repo rate. In addition, loan losses increased by SEK 7 million. The insurance business, which is still in a start-up phase, made a negative earnings contribution that was at the same level as a year ago. The start-up of the insurance company is proceeding according to plan, however, and the number of customers is growing at a good rate.

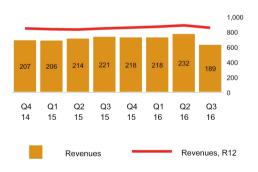

A number of activities and measures have been carried out and are currently in progress in the bank to reverse this trend. Among other things, costs reductions and a new fee structure isarepartly compensating for lower card revenues. The bank has also launched ICA Bank företag (business banking services) for ICA retailers in Sweden.

January-September 2016

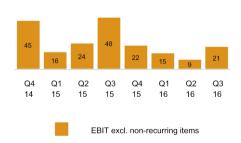

Revenue was level with the preceding year at SEK 639 million (641), and operating profit excluding non-recurring items decreased to SEK 45 million (88). The earnings decline is due to lower net interest income, lower card revenues and the start-up of ICA Insurance. These factors were partly compensated by lower costs.

EBIT excl. non-recurring items, SEKm

Other segments

Hemtex is a home textile retail chain with stores in Sweden, Finland and Estonia. With a total of 159 stores, Hemtex is the Nordic region's leading home textile chain.

Net sales and earnings

Third quarter 2016

Hemtex's net sales were slightly lower than in the same period a year ago. A positive price effect was countered by lower volumes attributable to a lower number of customers. Operating profit before non-recurring items was SEK 9 million lower than the same period a year ago, totalling SEK -1 million (8). Part of the difference is attributable to a positive exchange rate effect of approximately SEK 6 million during the same period a year ago, while the earnings decrease in general is attributable to slightly higher costs.

A comprehensive, strategic review is currently being carried out in the aim of achieving long-term sustainable profitability.

January-September 2016

Hemtex's net sales were slightly lower than in the same period a year ago and totalled SEK 705 million (729). Operating profit excluding non-recurring items was slightly lower than in the same period a year ago, totalling SEK -52 million (-50). This performance is mainly explained by lower sales volume, which was compensated by improved gross margins. In addition, costs were slightly higher, which is partly attributable to the ongoing strategic review.

Other

inkClub was divested during the second quarter, and the transaction was completed on 29 June 2016. The company's contribution to net sales and operating profit excluding non-recurring items until this date in 2016 is shown in the table below. The outcome for the period January–September a year ago also includes Cervera, which was divested in April 2015.

Other, Group

Seasonal variations

Grocery retail sales are affected by national holidays and when these occur. Christmas and Easter in particular are key holidays. For a large part of the retail sector the fourth quarter is seasonally the strongest quarter of the year.

Risks and uncertainties

ICA Gruppen works at the Group level to systematically identify and manage the risks associated with its operations. The risk management process is an integrated part of the strategy and planning work of each unit. Risks are consolidated, and risk management is reported to and monitored by ICA Gruppen's Executive Management and Board of Directors.

ICA Gruppen has significant exposure to the Swedish and Baltic grocery retail sector, and to the Swedish pharmacy market. An economic downturn and political decisions are factors that could have a negative impact on the Group's sales and earnings. ICA Gruppen's finance policy stipulates how financial risks are to be managed and mitigated. The policy also provides a framework for the Group's treasury management. More information about risk management is provided on pages 54-57 of ICA Gruppen's 2015 Annual Report.

Related party transactions

No significant transactions took place between ICA Gruppen and related parties during the quarter.

Share information

ICA Gruppen's share capital amounts to SEK 502,866,988, distributed among 201,146,795 shares, each with a share quota value of SEK 2.50. All shares have the same voting rights and carry equal dividend entitlement.

Annual General Meeting 2017

The 2017 Annual General Meeting will be held on 7 April at Stockholm Waterfront.

Nomination Committee appointed

ICA Gruppen's 2016 Annual General Meeting resolved that the Nomination Committee shall consist of four members who represent the company's shareholders. Two members are to be appointed by the largest shareholder, and two members are to be appointed by the next two largest shareholders (as per 31 August 2016). The three largest shareholders as per the end of August 2016 were ICA-handlarnas Förbund, Industrivärden and SEB Investment Management. These three shareholders together represent approximately 63% of the capital and votes in ICA Gruppen.

ICA-handlarnas Förbund is represented by Claes Ottosson and Anna-Karin Liljeholm, while Industrivärden is represented by Annika Lundius, and SEB Investment Management by Hans Ek.

Shareholders who wish to submit proposals and views regarding the work of the Nomination Committee are requested to do so as soon as possible, but not later than 3 February 2017, to ICA Gruppen AB (publ), Valberedningen, c/o Koncernjuridik, SE–171 93 Solna.

Parent Company

As per 1 February 2016 ICA Gruppen AB acquired assets and liabilities from the subsidiary ICA Finans AB as a step in combining ICA Gruppen's entire treasury function within the Group's parent company. All assets and liabilities were acquired at fair market value. Previously, the Parent Company's revenues from Group companies were recognised as reduced costs. These revenues and expenses are now reported gross. Figures for previous years have been adjusted accordingly.

Third quarter 2016

The Parent Company's net sales amounted to SEK 175 million (215). Profit before tax amounted to SEK 2,569 million (2,840). The acquisition of assets and liabilities from ICA Finans AB has increased total assets and improved net financial items.

January-September 2016

The Parent Company's net sales amounted to SEK 593 million (646). Profit before tax amounted to SEK 2,747 million (3,276). The acquisition of assets and liabilities from ICA Finans AB has increased total assets and improved net financial items. Dividends received from subsidiaries were SEK 800 million lower than in the preceding year.

Supplementary disclosures - Group

NOTE 1, ACCOUNTING PRINCIPLES

This interim report has been prepared in accordance with IAS 34 Interim Financial Reporting. The accounting principles and calculation methods are the same as those applied in the 2015 Annual Report. For 2016 only a few amendments have been published by IASB and IFRIC. These amendments have not had any material impact on ICA Gruppen's financial statements.

New standards from IASB with relevance for ICA Gruppen that have not been endorsed by the EU

IFRS 15 Revenues from Contracts with Customers was published in May 2014 with a decision in 2015 to push back its effective date to financial years that begin on 1 January 2018 or later. In April 2016 IASB published clarifications of certain parts of IFRS 15. IFRS 15 is expected to be endorsed by the EU during the fourth quarter of 2016, with subsequent clarifications during the first half of 2017. Within ICA Gruppen an analysis is being conducted of the effects that implementation will have on the financial statements. This analysis is expected to be completed during the year. The main source of revenue for ICA Gruppen consists of sales of goods in which ICA Gruppen's performance undertaking is usually clear in its character. However, certain contracts exist in which ICA Gruppen's role needs to be analysed in relation to the rules of IFRS 15 in order to be able to determine the effect of implementation.

IFRS 9 Financial instruments was published in July 2014. The standard will replace IAS 39 Financial Instruments: Recognition and Measurement. It contains rules for classification and measurement of financial assets and liabilities, impairment of financial instruments, and hedge accounting. It takes effect for financial years that begin on 1 January 2018 or later. ICA Gruppen is currently assessing the effects of IFRS 9, particularly with respect to measurement of loan losses. IFRS 9 is expected to be endorsed by the EU during the fourth quarter of 2016.

IFRS 16 Leasing was published in January 2016. Provided that the EU endorses the standard, which is expected to happen in 2017, IFRS 16 will come into force in 2019. IFRS 16 addresses lessees' reporting of their leases. Lessors are to continue reporting leases in the manner prescribed by the current IAS 17 Leases. Classification of a lease as an operating lease or finance lease has been changed in IFRS 16 and is to be based on the leased asset instead of on the underlying asset. IFRS 16 requires lessees to recognise assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value. The asset is expensed over the term of the lease. Lease payments are split into an interest component and amortisation of the debt. ICA Gruppen has a large number of lease contracts. In terms of value, the most significant lease contracts pertain to properties that ICA Gruppen leases in and in many cases leases out to non-consolidated ICA retailers. ICA Gruppen has begun work on implementation of IFRS 16, which involves an analysis of the standard and its effect on ICA Gruppen's financial statements. At present it is not possible to quantify the effects of implementation of IFRS 16, however, implementation will have a significant effect on ICA Gruppen's financial statements.

Important assumptions and assessments

Preparation of the financial statements in accordance with IFRS requires management to make assessments, estimates and assumptions that affect application of the accounting principles and the amounts reported in the income statement and carried on the balance sheet. Estimates and assumptions are based on historical experience and a number of factors that are considered reasonable based on the circumstances. The results of these estimates and assumptions are used to assess the carrying amounts of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates and assessments.

Information regarding Ancore Fastigheter AB

Ancore Fastigheter AB is joint arrangement between the pension insurance company Alecta and ICA Gruppen. The parties each own 50% of the company. All significant decisions about the operations of Ancore must be made as a joint understanding between the two owners. Ancore Fastigheter AB owns and manages 30 properties in Sweden that house ICA stores in which operations are conducted by non-consolidated ICA retailers. Based on this arrangement, Ancore Fastigheter AB constitutes a joint venture. Consolidation is done according to the equity method.

Information regarding Secore Fastigheter AB

Secore Fastigheter AB is a joint arrangement between Första AP-fonden and ICA Gruppen that was started in December 2015 through Secore's acquisition of 13 store properties from ICA Gruppen. The company's purpose is to acquire and own ICA stores in strategic locations. The stores are operated by non-consolidated ICA retailers. The parties each own 50% of the company. All significant decisions about the operations of Secore must be made as a joint understanding between the two owners. Based on all relevant data in the joint arrangement, Secore Fastigheter AB is classified as a joint venture. Consolidation is done according to the equity method.

Financial key ratios

ICA Gruppen relies on a number of financial key ratios in its interim reporting, some of which are not defined in IFRS but are so-called Alternative Performance Measures. The aim is to provide additional information that contributes to a more thorough comparison of year-on-year development and to give an indication of the Group's performance and financial position. The APMs used by ICA Gruppen are generally recognised within the sectors that ICA Gruppen works in. Data on these APMs and definitions is also provided on www.icagruppen.se. The most important of these measures are those for which the Board of Directors has set financial targets. These are: to grow faster than the market in the grocery retail and pharmacy businesses; to achieve an operating margin (excluding non-recurring items) of 4.5%; to achieve a return on capital employed of 10%; and to maintain net debt in relation to EBITDA that is lower than a factor of 2. In addition, the Group has set a target to distribute at least 50% of net profit for the year in shareholder dividends.

Definitions of key ratios

Business volume

Sum of lending, deposits, fund savings and home mortgages (including volume intermediated via collaborations).

Capital employed

Equity plus interest-bearing liabilities.

Cash flow from operating activities per share

Cash flow from operating activities for the period divided by the average number of shares outstanding.

C/I ratio (ICA Bank)

Total costs in relation to total income.

Common Equity Tier I ratio (ICA Bank)

The bank's capital base in relation to risk-weighted assets

Divestments

Payments received for sold tangible and intangible non-current assets during the period according to the statement of cash flows.

Earnings per ordinary share

Profit for the period, excluding non-controlling interests, divided by the average number of shares outstanding.

EBITDA

Operating profit before depreciation, amortisation and impairment losses (Earnings Before Interest, Taxes, Depreciation and Amortisation).

Equity/assets ratio

Equity including non-controlling interests in relation to total assets.

Equity per share

Equity, excluding non-controlling interests, divided by the total number of shares outstanding.

Gross profit

Net sales less cost of goods sold.

Glossary

Hard discount

Distinctively low price store with limited product range.

Joint venture

A partnership project, a joint venture company.

MTN

A medium-term note (MTN) is a continuously offered debt note with a set maturity date.

Near Food

Items such as household products, pet food and over-the-counter drugs.

Non-food

Items that are not food, such as clothing and footwear.

Private label products

Corporate brand products.

Investments

Investments paid in tangible and intangible non-current assets during the period according to the statement of cash flows.

Like-for-like store sales

Sales for stores that generated sales both in the reporting period and in the comparison period.

Loan loss ratio (ICA Bank)

Loan losses in relation to average lending.

Net debt

Interest-bearing liabilities excluding pensions, ICA Bank and cash and cash equivalents.

Net interest (ICA Bank)

The difference between the bank's interest income and interest expense.

Net margin

Profit for the period as a percentage of net sales.

Non-recurring items

Gain/loss on disposal of non-current assets, impairment of non-current assets as well as major structural changes.

Occupancy rate (ICA Real Estate)

Market rents for rented properties divided by total rental value (contracted annual rent + market rent for unrented premises).

Operating margin

Operating profit as a percentage of net sales.

Return on capital employed

Operating profit plus financial income in relation to average capital employed. ICA Bank's operations are excluded from both the income statement and balance sheet when calculating return on capital employed.

Return on equity

Profit for the period in relation to average equity. ICA Bank's operations are excluded from both the income statement and balance sheet when calculating return on equity.

Yield (ICA Real Estate)

Operating net in relation to the average book value of properties.

This interim report has been reviewed by the company's auditors.

Stockholm, 9 November 2016

Per Strömberg CEO ICA Gruppen

Review report

ICA Gruppen AB, reg. no. 556048-2837

Introduction

We have reviewed the condensed interim report for ICA Gruppen AB (publ) as at 30 September 2016 and the nine months period then ended. The board of directors and the CEO are responsible for the preparation and presentation of the interim report in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements ISRE 2410, Review of Interim Financial Statements Performed by the Independent Auditor of the Entity. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and other generally accepted auditing standards in Sweden.

The procedures performed in a review do not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not prepared, in all material respects, in accordance with IAS 34 and the Swedish Annual Accounts Act regarding the Group, and in accordance with the Swedish Annual Accounts Act regarding the Parent Company.

Stockholm, 9 November 2016 Ernst & Young AB
