APPENDIX 4

PRINCIPAL MARKETS

The Group is primarily active in the retail and food retail markets in Sweden, Norway and the Baltic countries. However, the Company has through a subsidiary entered into an agreement to sell all shares held in ICA Norge, which is subject to Konkurransetsilsynet's approval. The Group is also active in the bank market in Sweden through ICA Bank and in the real estate market in Sweden and Norway through ICA Real Estate and in the Baltic countries through Rimi Baltic. The properties in Norway owned by ICA Fastigheter are not included in the divestment of ICA Norge. The Group is also, through ICA Gruppen's other portfolio companies, active in the Nordic region in a number of other retail areas within home electronics accessories, glassware, dinnerware and household goods, consumables, home textiles and pharmacy products. As set out in the section *Acquisition of Apotek Hjärtat* below, ICA Gruppen has also entered into an agreement regarding the acquisition of the Swedish pharmacy chain Apotek Hjärtat. In addition, one of the subsidiaries, Forma Holding, publishes books and magazines primarily in Sweden.

MATERIAL CHANGES IN THE ISSUER'S FINANCIAL POSITION

There has been no adverse material change in the Group's financial position or position in the market that could affect the market's view of the Company since the publication of the interim report for the period 1 January – 30 September 2014.

MATERIAL AGREEMENTS

Acquisition of Apotek Hjärtat

On 12 November 2014, it was announced through a press release that ICA Gruppen has entered into an agreement with Altor Fund III and the other shareholders regarding the acquisition of all shares in Apotek Hjärtat Holding AB ("**Apotek Hjärtat**"). The purchase price amounts to approximately SEK 5.7 billion on a cash and debt free basis and will initially be financed using a combination of ICA Gruppen's available cash and its existing credit facilities. The completion of the acquisition is subject to approvals by the Swedish Competition Authority and the Swedish Drug Administration, which are expected to be received in April 2015 at the latest.

Revolving credit facilities

The Company has borrowings under two revolving credit facilities, one for SEK 5,000 million and one for SEK 2,300 million. The first facility expires on March 27, 2016, and in the second facility SEK 1,300 million expires on February 11, 2015 and SEK 1,000 million on February 11, 2016. The loan agreements also contain customary terms, guarantees and commitments, including restrictions on further borrowing, guarantee commitments, pledges and significant changes in the

business. The Company also undertakes, as customary, to achieve certain levels of key financial ratios (net debt in relation to operating profit before depreciation and amortization (EBITDA) and also EBITDA in relation to net financial items) and the agreements contain provisions concerning the banks' right to terminate the credit facilities in the event of breach of contract by the Company. The loan agreements also contain a provision entitling the banks to terminate the credit facilities should the Company be delisted or should ICA-handlarnas Förbund cease to own and control more than 50 per cent of the shares and votes in the Company, should events occur that have a material negative impact on the ability to meet payment commitments under the credit facility agreements or on the group's financial position as a whole, or if a group company is not able to meet its commitments to other creditors, known as "cross default".

DOCUMENTS AVAILABLE FOR INSPECTION

The following documents are available in electronic form on the Company's website www.icagruppen.se. APPENDIX 5

Regulatory risks related to the retail sector

The retail trade, and the food retail trade in particular, is subject to increasingly extensive and complex regulations and directives from authorities in all the jurisdictions in which the Group operates. Supervisory authorities could intervene in all jurisdictions where the company has operations. This risk arises primarily in the event of sales of food and other grocery products that are contaminated or unsafe. Among other things, fines and charges could be imposed on the Group Company concerned, it could be prohibited from conducting one or more of its business operations or it could be subject to limitations or other restrictions on its activities. New laws or regulations, or changes in the application or interpretation of existing laws and regulations that are applicable to the Group's operations, could result in, among other things, the Group being forced to change certain of its business methods, which could expose the Group to unforeseen costs. The situation is further complicated by the fact that certain regulations are even contradictory, which makes it harder to interpret the rules correctly.

As set out in the section *Risks related to the pharmacy operations* below, ICA Gruppen has entered into an agreement regarding the acquisition of the Swedish pharmacy chain Apotek Hjärtat. The completion of this acquisition is subject to approval by the Swedish Drug Administration. If a local supervisory authority concludes that the Group has acted in contravention of applicable local laws in a particular market, including if the Swedish Drug Administration decides to not approve the acquisition of Apotek Hjärtat, or if the Group fails to establish functioning links with local supervisory authorities, this could negatively impact not just the Group's operations in that market, but also its reputation and brand in general.

All the above risk could negatively impact the Company's operations, earnings and financial position.

Risks related to the pharmacy operations

The pharmacy operations run by the Group is carried out through ICA Sverige, Cura apoteket. In addition, ICA Gruppen has entered into an agreement regarding the acquisition of the Swedish pharmacy chain Apotek Hjärtat. Apotek Hjärtat and the existing pharmacy operations of the Group will combine and create a subsidiary of ICA Gruppen

The pharmacy operations that are, or will, be run by the Group are subject to extensive regulation. Changes in drugs legislation, for example (or changes in interpretations of such legislation), or amended or withdrawn licenses, could restrict the Group's ability to conduct pharmacy operations profitably, which could negatively impact the Group's operations, earnings and financial position.

Moreover, pharmacy operations are associated with risks related to handling errors by employees, such as the unauthorized dispensing of prescription drugs or the wrong drugs being dispensed. This could result in action by authorities, such as

amended or withdrawn licenses, which could negatively impact the Group's operations, earnings and financial position.

Risks related to competition law

In recent years, competition authorities in the countries where the Group operates have generally made the food and retail sectors a focus of their activities.

ICA Norge has entered into a cooperation agreement with NorgesGruppen for some parts of sourcing and distribution in Norway, as announced on 14 January 2013. This cooperation agreement was subsequently reported to the Norwegian Competition Authority. On 13 February 2014 Konkurransetilsynet gave a stop notice declaring that it intends to stop the implementation of the cooperation agreement. ICA Norge and NorgesGruppen have commented on the stop notice. The authority has recently announced that its final decision cannot be expected until autumn 2014. Should Konkurransetilsynet's decision to stop the cooperation agreement become final, this could necessitate changes in significant aspects of the way that ICA and NorgesGruppen cooperate or prevent such cooperation from taking place, which could negatively impact the Group's operations, earnings and financial position.

Given this background, the Company has through a subsidiary in October 2014 entered into an agreement with Coop Norge regarding the sale of all shares held in ICA Norge. However, this transaction is subject to Konkurransetilsynet's approval. Should Konkurransetilsynet not approve of the transaction, the above risks will still remain.

Furthermore, the Swedish Competition Authority (Sw. *Konkurrensverket*) has on its own initiative previously investigated ICA Sweden's business relations with ICA retailers. Although the Swedish Competition Authority has not taken any action against ICA in conjunction with these investigations, it cannot be ruled out that new investigations may be conducted in the future.

The competition authorities in the Baltic States pay close attention to the retail sector and on a number of occasions have initiated actions against operators in the market, including Rimi Baltic's national company, often based on market dominance of the operator in question. As elsewhere in Europe, the competition rules also allow the authority to impose antitrust penalties on companies that are deemed to have infringed the regulations laid down in competition law, something which may have a negative impact on the Group's operations, earnings and financial position.

As set out in the section *Risks related to the pharmacy operations* above, ICA Gruppen has entered into an agreement regarding the acquisition of the Swedish pharmacy chain Apotek Hjärtat. The completion of this acquisition is subject to approval by, *inter alia*, the Swedish Competition Authority. From time to time the Group considers various other acquisitions, mergers and partnerships that require approvals from competition authorities in the jurisdictions concerned. In the event that such approvals, including the Swedish Competition Authority's approval of the acquisition of Apotek Hjärtat, are not given, or are given only on condition that the

Group makes changes that the Group is not willing to implement, the Group's expansion and other development may be restricted, which could have a negative impact on the Company's operations, earnings and financial position.
